SOLUTION
WITH
RIGHT COMBINATION

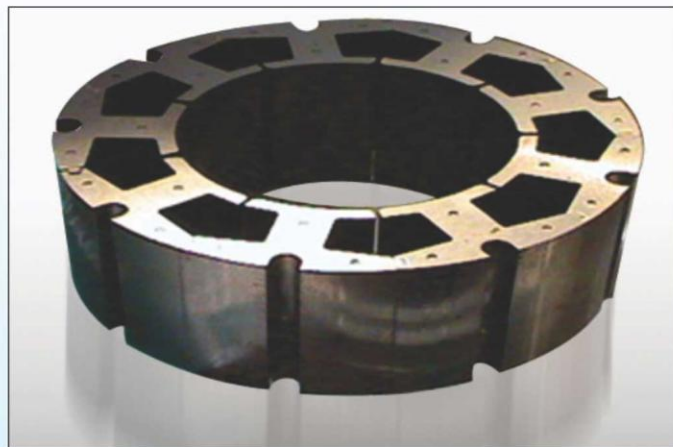

<http://www.ujwalstampings.com>

Ujwal Group is a leading manufacturers of Electrical Stampings & Laminations for: Electrical Motors, Alternators, Switchgear, Automobile, Pump & Power Tools.

Group is having sophisticated Tool Room with CNC Wire-cut and other facilities.

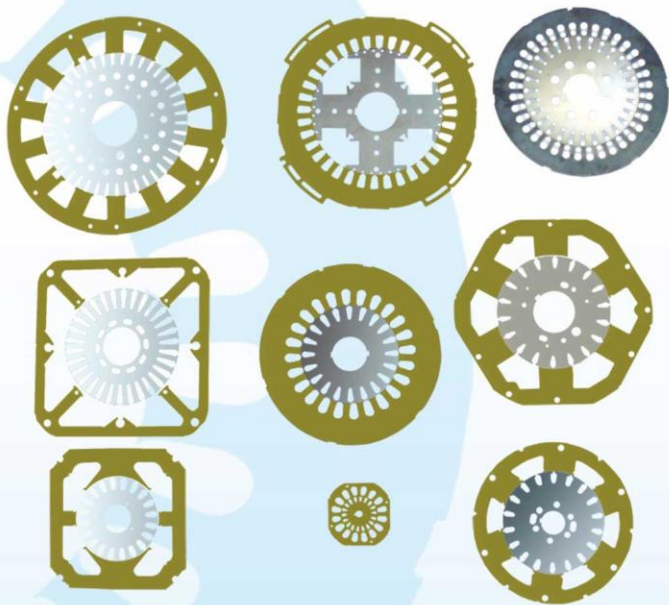

Group meets the requirements of Interlocked Packs, Segmental Laminations, Die Cast Rotors & Wound Packs.

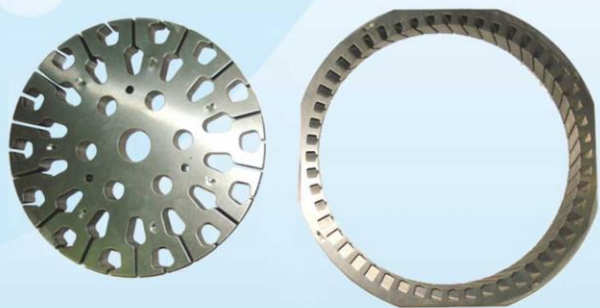

Ujwal Group is having production capacity of 1000 Tonnes Electrical Stampings per month, ranging from 30 mm to 600 mm diameter as per customer's requirement.

With unique 3-axis CNC Schuler Notchmaster Model N25N, Stator O.D. 2000 mm with 18 notches per segment can be produced.

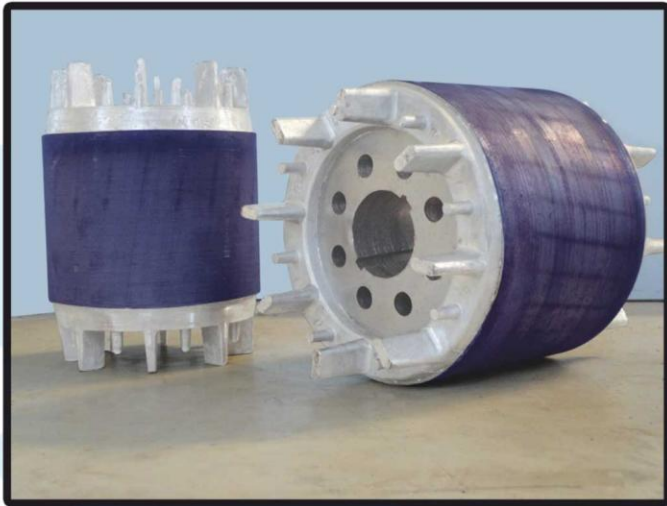

Ujwal Group is working with clients to create specialized product applications in a wide variety of fields, including the Medical, Telecom, Automotive, Wind Mill, Large Motors, DC Machines, Ceiling Fan and Electronics industries.

Ujwal Electrical Stampings is a focused producer of precision stampings.

Our expertise is in running the very high speed presses like Bruderer, Haulick, Dobby ranging from 30 T to 110 T with Multi-row layout indexing and Die Rotation type tools.

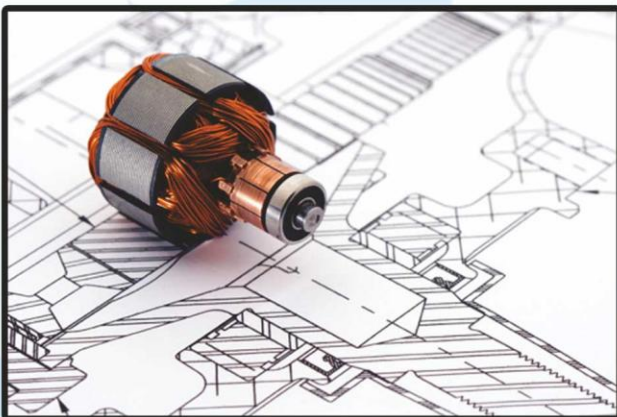

WOUND EXCITOR ROTOR -

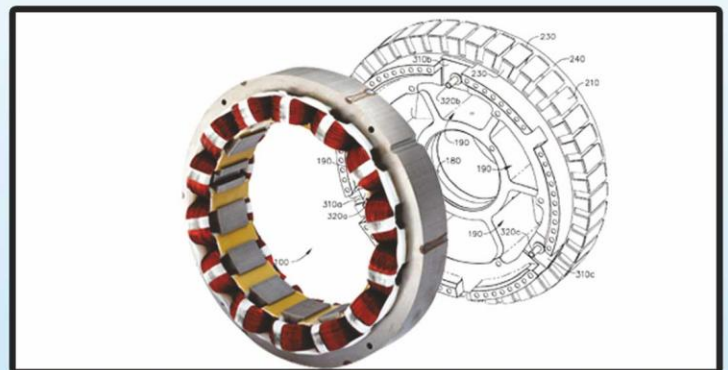

- ALUMINIUM DIE-CAST ROTORS

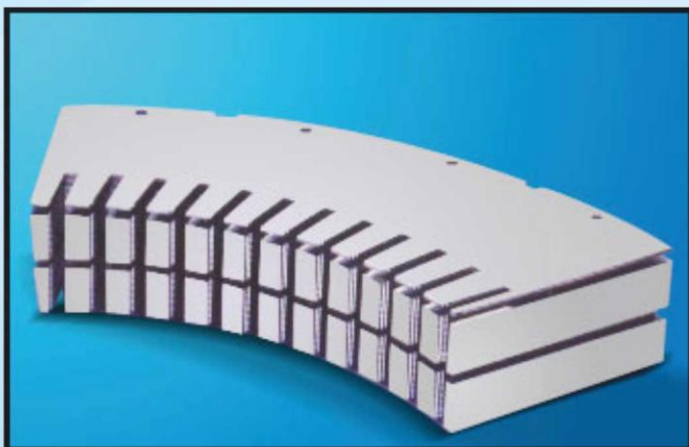

- WOUND ROTORS

WOUND STATORS -

- SEGMENTAL LAMINATION

500 Ton High Speed Press Line

First 500 Ton High Speed Press with all accessories which can produce Precision Stampings upto 600 mm Diameter running at 100 SPM.

Notching Press

First Ever N25N Notching press which can cater the notching requirement of Circular Blanks upto 1500mm Diameter and Segmental Laminations upto 2400mm Diameter.

The Machine can run @600 SPM.

The Machine is equipped with all the latest technologies like SKIP Notching ,Corner Radius, etc.

Ujwal Electrical Stampings Pvt Ltd was established in 1993 at Ahmednagar M.I.D.C in Maharashtra (INDIA).

In period of 18 years, company has developed strong infrastructure with the help of its group companies

Ujwal Stampings Pvt Ltd has continuously invested in technology not only for Manufacturing, Testing and Inspection, but also in competence of our work-force to achieve unbeatable levels of accuracy and consistency.

In the year 2009 - 10, company has increased major production capacity by adding unit - "M/S Shree Ganesh Stampings Pvt Ltd" by means of high speed presses ranging from 40 - 350 tonnes.

In place of fully processed steel, heat treated steel is major choice for motor and transformers now-a-days.

Ujwal's annealing facility adds good advantages for customers. With major cost saving, improvement in the magnetic properties of laminations.

In 2011-12, company moved ahead a milestone of success with addition of vertical die-casting machine with capacity of 75 tonnes.
